25X1A6a MEMORANDUM TO THE ACTING CHIEF, [REDACTED]

SUBJECT: Molotov Speech

25X1A6a

I have been advised that in connection with the Molotov Speech of 6 November 1947, operators at the [REDACTED] copied Morse code supplying the Tass-English version of the speech continuously for four and a half hours until the transmission faded out. This is an exceptionally long period of time to copy Morse code without relief. The two-thirds of the speech furnished by the [REDACTED] was particularly valuable as a check on the translation from the Russian language version which was used in full in the Daily Report.

The excellent performance of the [REDACTED] in this instance is appreciated, and I desire to convey my commendation herewith.
